NUST Eligibility Criteria

1. Marks you need

You need at least 60% in your Matric/O-Level and at least 60% in your FSc/A-Level. If you're below 60% in either, you can't apply.

2. Which FSc group you need

- **Engineering:** Pre-Engineering (Physics, Chemistry, Maths) or ICS (Physics, Maths, Computer Science)
- **Computer Science / Software Engineering / AI:** Pre-Engineering or ICS. Pre-Medical students can apply if they've passed Additional Maths.

3. If you did O/A Levels

Get your equivalence certificate from IBCC.
You can apply with your O-Level equivalence first, but you must submit the A-Level equivalence later.

4. If your result isn't out yet

You can still apply. You'll need to show proof of your marks before your admission is confirmed.

5. How you're selected (merit)

Matric 10% + FSc 15% + NUST Entry Test (NET) 75%
